Support: AFMC

Subgroup

Data Subgroup ²
Co-Chairs: I. Oandasan (CFPC) & J. Kimball (AFMC)
Support: AFMC

¹ Physician Resource Planning Mandate

- To establish principles and identify areas of focus with potential deliverables to address physician resource planning issues;
- To continue involvement with the government-led group, Physician Resource Planning Advisory Committee;
- To ensure continued alignment with current initiatives established by the Rural Road Map Implementation Committee (RRMIC), and apply a rural lens to Physician Resource Planning measures, data, targets, and directions;
- To establish measures and collect information to help determine the right number, mix and distribution of physician resources to meet societal needs;
- To advise on targets and directions to achieve the right number, mix and distribution of physician resources to meet societal needs.

² Data Subgroup Mandate

- To plan and document sources of data that can be used to fulfill the CMF PRP group mandate:
- Existing data sources will need to be examined for applicability and new data sources created as needed;
 - To identify the gaps within the data and where those are;
 - To establish measures and collect information to help determine the right number, mix, distribution, and scope of practice of physician resources to meet societal needs;
 - To identify linkage opportunities between the datasets;
 - To identify the data needed and how to meet those needs.
